## Going Deeper -

1. Are your attitudes toward homosexuality and those who struggle with homosexual orientation and attraction driven by the Bible and the Gospel? How much of your understanding has been invaded by false teaching either within Christianity or from our culture? How does your attitude need to change?
2. How can each of us make Cornerstone Bible Church a place where all sinners seeking sanctification, those who battle sexual sins included, can feel part of our community? What needs to change about your attitudes, speech, and actions so that all sinners seeking sanctification can find a home here?
3. Read Romans 6. God has broken the power of sin and asks each of us to live in that victory. If you struggle with sinful sexual attraction, know that this victory is there for you. The Gospel is big enough to give victory over any and every sinful disposition, attitude or action.

Cornerstone Bible Church is committed to reaching out in love and truth to all people. We will never turn away anyone who contends Biblically against their own sexual temptation and we will seek to assist everyone in their battle to do so.
